

# softXXpand

Virtual Desktops for CAD, Graphic Design, and other High Intensity Applications

Add New PCs to Your Organization Without Breaking Your Budget

## Benefits

- **Increase Return on Investment**

SoftXpand allows you to increase the return on your hardware investment. Turn every new PC into up to 8 workstations without sacrificing performance.

- **Re-Purpose Current PC's**

SoftXpand can operate on any existing or new PC. Are you looking to add PCs to your organization but do not have the budget? SoftXpand is a low cost solution that allows you to re-purpose your current PCs and **Xpand** them into multiple workstations.

- **Reduce Costs**

Up front cost savings include 60% or more on the purchase of new workstations. Over time you will reduce maintenance costs by 80% and save 75% on electricity costs. On top of that, the next time you purchase computers you will continue to endure your cost savings!

- **Go Green**

Help protect our environment and increase the image of your organization. With SoftXpand you can reduce your carbon footprint by 80% and energy consumption by 75%.

- **High Performance**

SoftXpand optimizes the utilization of the GPU and CPU providing **full PC performance** and experience **to ALL users**.

- **Run Virtually Any Application**

SoftXpand supports virtually any type of application, including CAD, graphic design, multimedia, classroom management and more!

- **Flexibility**

Implementation is very flexible using ANY monitor. SoftXpand works with a variety of configurations and applications.

- **Software Only**

Unlike other solutions, SoftXpand does not require any proprietary hardware and easily integrates with any 3rd party application.

- **Easy to Install**

You can have multiple workstations configured and up and running in minutes with the ease of installation that is provided by SoftXpand.

- **Integrates with CrossTec SchoolVue**

Easily integrates with CrossTec SchoolVue.
